

*Memoir*

*By*

*Anam Shakil*

*Collection - Task 3*

*Studio JI*

# Background

*I love collecting things, from leaves to candles, from paper to paper clips, from stones to sea shells & so on and so forth. So, when we were asked to work for this task, I had a lot of options and I knew what I will be selecting for this task.*

*Since I love collecting things, I strongly believe that I have inherited it from my parents. So, I decided to work with the stuff that are being passed on from one generation to another, those things that are inherited. But these aren't those stuff that are being used like 'Ammi ki Shadi Ka Jora' or some old 'Dupatta' but things that cannot be used but have memories attached to them and you feel connection with those because of those things, who aren't between us anymore.*

# *Quran*

*- it belongs to my late Dadi and about 120 years old. It is originally from Jabalpur, India. I took it from my father when I was only 12 years old.*

# *Mangal Suter*

*- it belongs to my mother and it is over 40 years old. It is also from India. I always used to love it and eventually my mother gifted it to me.*

# *Watches & Glasses*

*- these vintage watches and glasses belongs to my Dada. My father was very young when my dada passed away and that's why my father could only own some of his precious watches and glasses as his memory. These are also over 120 years old.*

# Coins

*- my father used to travel a lot and had admiration towards collecting coins. These coins are from different parts of the world and are over 50 years old.*

# Paan Daan

*- this vintage paan daan is over 150 years old and belongs to my Dadi. It is originally from Jalabalpur, India.*

# Sarauta

*- these are as old as the paan daan, over 150 years old. These are also from Jabalpur, India.*

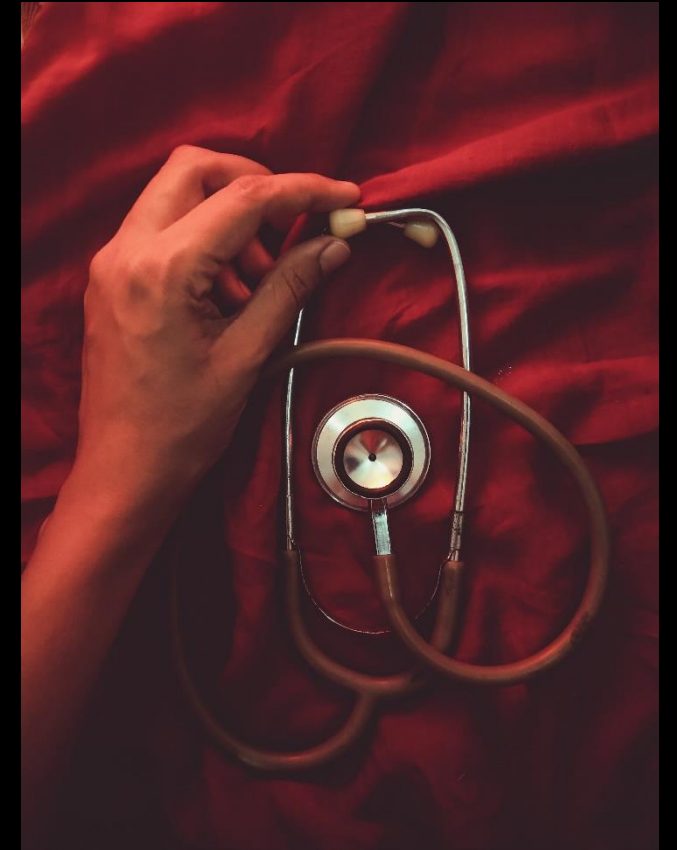

# *Kharil & Tarazoo*

*- my dada was a doctor. This Kharil and tarazoo, he used to use for the preparations and measurements of the medicines. These are also from India and are over 150 years old.*

# *Medical Instruments and Stethoscope*

*- these instruments belongs to my Dada and again they are also over 120 to 150 years old from India.  
Whereas, this stethoscope belongs to my mother when she was a student at medical college and is over 50 years old.*

*The End*
